

## ELECTRO POLISHER

### PRODUCT CODES

#### 101MEP - Electrode Set Up

Includes : Machine, Electrode, Ground Clamp, Boots, Coolant and Polishing Solution.

#### CONSUMABLES

102MEP	5 LITRE SOLUTION
103MEP	25 LITRE SOLUTION
104MEP	POLISHING BOOTS
105MEP	DIPPING SOLUTION 2.5 LITRE
106MEP	COOLANT 1 LITRE
107MEP	ELECTRODE/HEAD

#### SPECIFICATION

- 2400 Watts
- 240V AC
- Weight: 13kgs
- Size: 500mm (L) x 350mm (W) x 320mm (H)

#### FEATURES

- Long life electrode tip (8cm)
- Adaptable electrode tip to suit specific jobs
- Auto or manual electrolyte feed
- Overload trip indicator
- Unique cooling system
- Non kink/ burn resistant 5 metre hose
- VRD. no load voltage <35V

#### BENEFITS

- Superior mirror finish while you watch (2B to mirror in seconds)
- Safe food grade/non stain electrolyte solution
- No stain from pickling paste
- Electro polish small stainless steel pieces
- Removes heat tint and weld discolouration, oxide scale and corrosive contaminants
- Removes laser cutting tint

*This is not a stainless steel cleaner.  
This is not a weld pickling machine.  
This is an Industrial Electropolishing Machine*

### 12 Months Warranty

DISTRIBUTED BY:

### Faster, Safer Better Post Weld Finishing 8 Times faster than Weld Cleaning Machines

- No dangerous pickling with acutely toxic chemicals
- No grinding and leaving marks and abraded surface
- No sending welded pieces out to the electro polishing bath
- No blending electro polished pieces
- No dull finishes
- No pickling stains
