

TECHSOUTH

TUNGSTEN GRINDER

The Vacuum Head Unit

comes complete with an adjustable grinding head for various angles and a vacuum that extracts the tungsten dust to a vacuum bag that can be emptied or replaced.

The Adjustable Head Grinder

allows you to set various angles on the tip of the tungsten, for the more difficult tig welding projects: especially when welding thin materials.

PROXXON

The Standard Grinder

is an excellent tool for hand orbital welding when using tungsten electrodes. The grind is always consistent for precise arc striking and concentration.

The standard unit has a fixed angle 20° included. The diamond wheel is double sided and the two grooves on the top; as well as, two on the bottom so the entire wheel is used for grinding.

Standard Features

- Double Sided Diamond Wheel
- 220 Volt AC Motor with Variable Speed
- Collets for (1/16", 3/32" and 1/8") Tungsten
- Double Sided Motor
- Stainless Steel Collets
- Tool Storage Box
- Adjustable Head for Various Angles
- Vacuum Unit with a Bag to Trap Dust

Optional Features

- Premium Diamond Wheel for Longer Life
- .020" and .040" Collets

PRODUCT CODE

TSPPEVAC Grinder with Vacuum

PPV-032 Replacement Vacuum Bag
 PPE-002 Replacement Diamond Wheel
 PPE-009ADJ Replacement Collet 3/32
