

# MINI TUNGSTEN ELECTRODE GRINDER

**AFTG**

## GRINDING • SQUARING • CUTTING

Ultra-light weight and compact design is ideal for grinding, squaring and tungsten electrode cutting anywhere with speed and precision.

### Features

- 2 different angles, 4 different electrode diameters
- Grinding, squaring and cutting function
- High angular precision through preset grinding angle for all electrodes
- Ultra-Light and rapid processing
- Ideal for small batch production at work-site
- Precise cylindrical grinding
- Short machining time through high grinding capacity

<b>Power</b>	400W
<b>Electrode Dia.</b>	1.0, 1.6, 2.4, 3.2mm
<b>Grinding Angle</b>	22.5° , 30°
<b>Power Cable</b>	1.5 m
<b>Duty Cycle</b>	100%
<b>Speed</b>	27000rpm
<b>Weight</b>	0.95kg
