

Accurate indication. Reliable results.™

TEMPILAQ

TEMPERATURE INDICATING LIQUIDS
FOR COLD AND SMOOTH SURFACES

Tempilaq Indicating coating is used to verify the achievement of a specific temperature on a wide range of surfaces under dynamic conditions.

Easily painted on any surface, Tempilaq leaves a irreversible mark that is optimal for heat-treating, preventive maintenance and any other temperature sensitive applications.

- Easy application with quick-dry formula on any surfaces
- Melts at designated temperature leaving a noticeably different mark
- Wide temperature range from 175°F (79°C) - 1900°F (1038°C)
- Excellent accuracy within +/- 1%
- Only use Tempilaq Green Label Thinner to dilute or replace evaporated solvent
- Made in U.S.A.
